User Persona

Sunil Rao

Age: 25

Profession: Web Designer

Sunil is a freelancer, who works with clients from multiple domains. Being a freelancer, he is always in search of productivity tools that can simplify his daily work.

User Needs

On a day-to-day basis, Sunil works with many clients. He always needs to get feedback from clients, regarding websites, and design creatives.

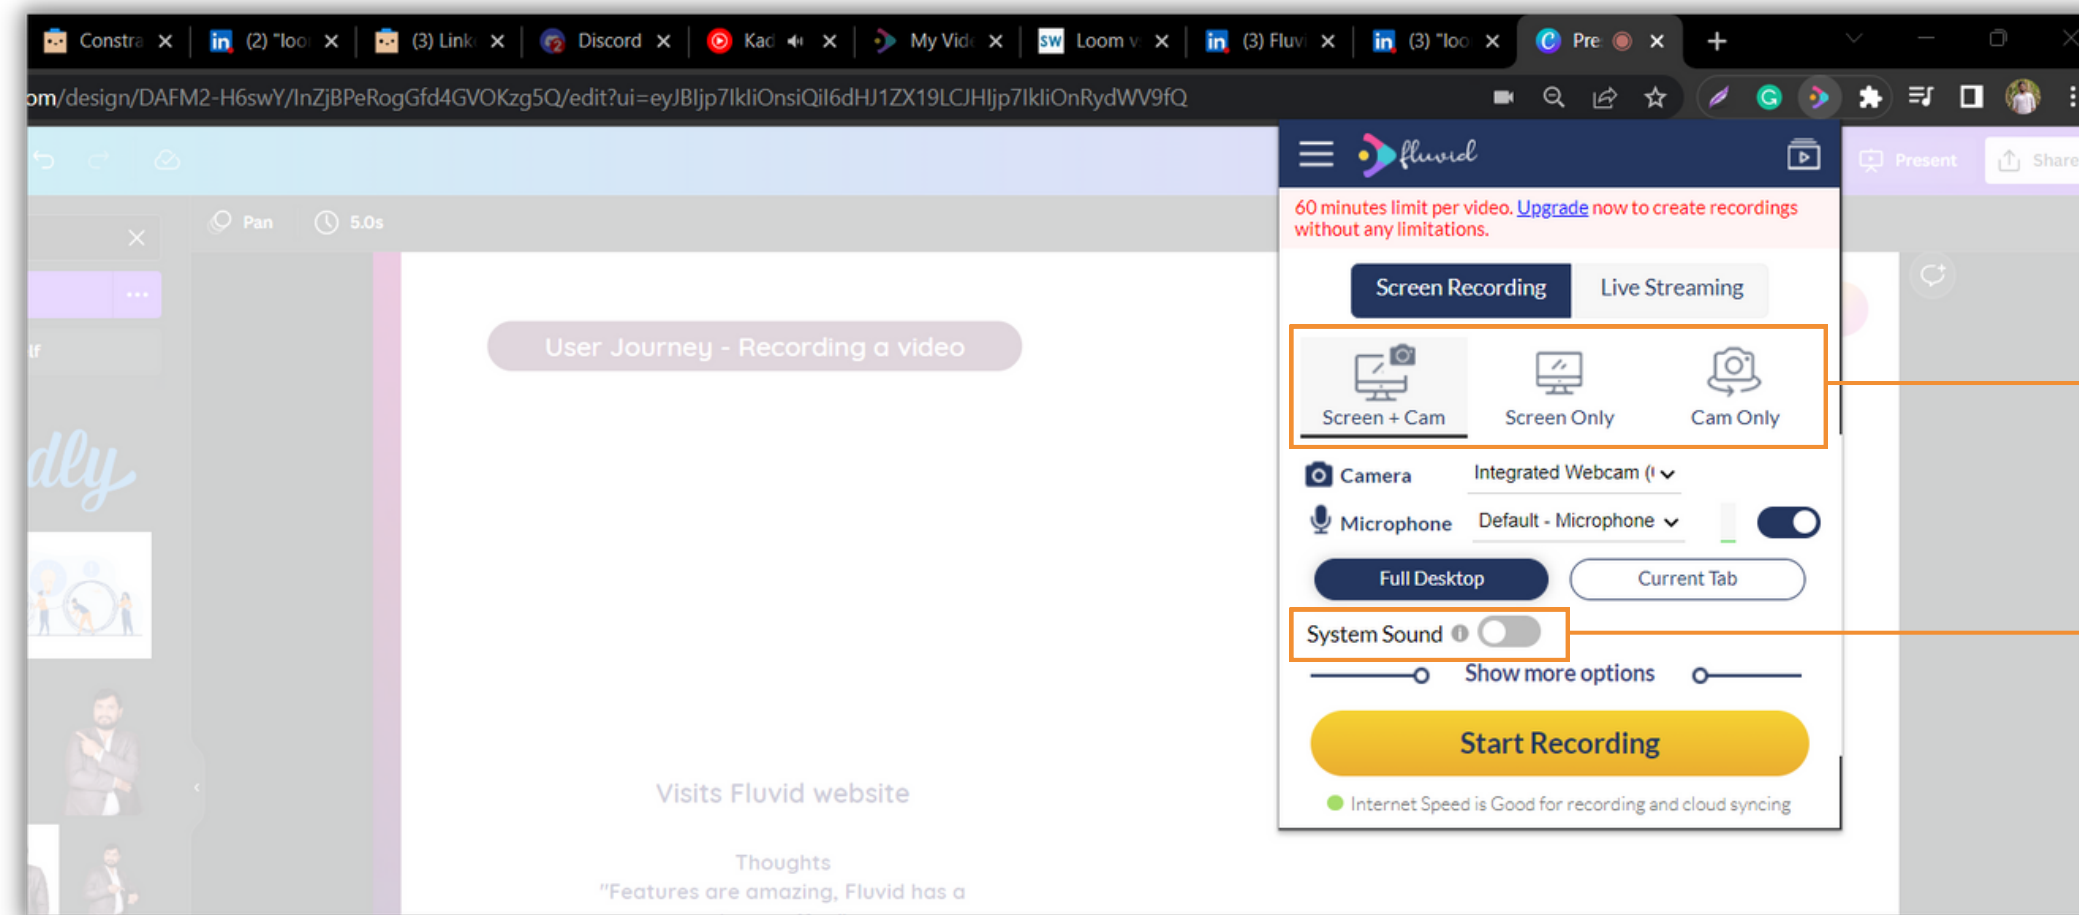

Pain Points

Every time to get feedback on the website and set up a dashboard, explaining the functionality etc. Sunil needs to arrange meetings. This becomes hectic and wastes time.

"I need the best tool to record my screen. I can't waste my time scheduling meetings every time."

Sunil

User Journey - Recording a video

Select the recording type

- Screen & Webcam recording
- Screen recording only
- Webcam recording only

Feature to record System Sound

Opens Fluvid App by clicking the chrome extension

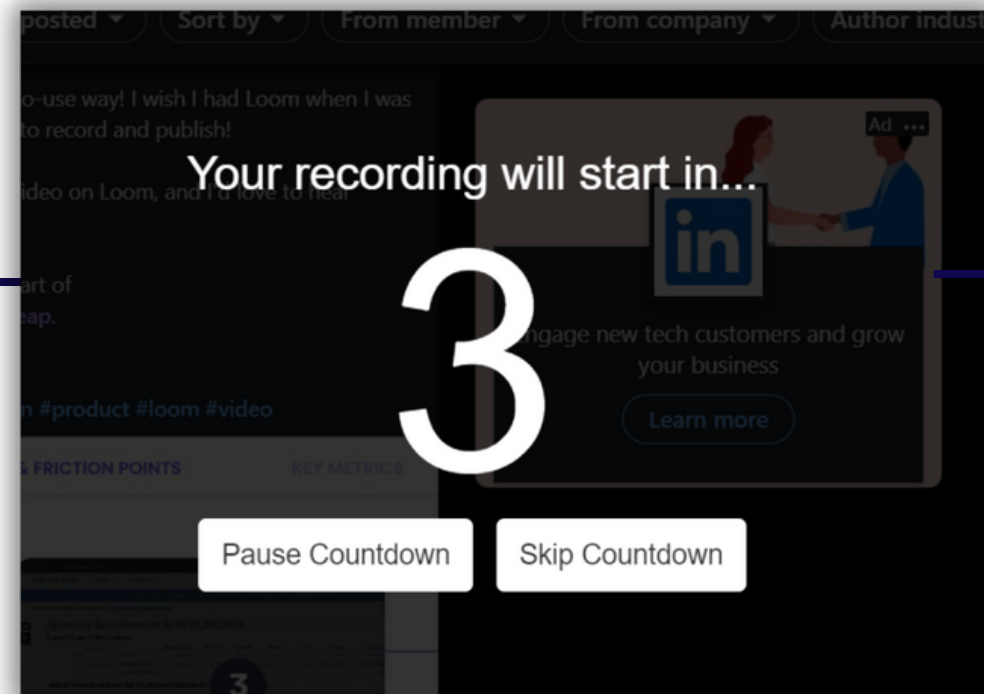

Thoughts

"It's started with just one-click.
I'll go record my camera so that I can explain my work."

One-click recorder
Clear options for recording

available

User Journey - Recording a video

- Privacy Options
- Direct publishing to social media platforms
- Video Editing features
- Sharing preferences

Completes Recording and redirected to Fluvid dashboard

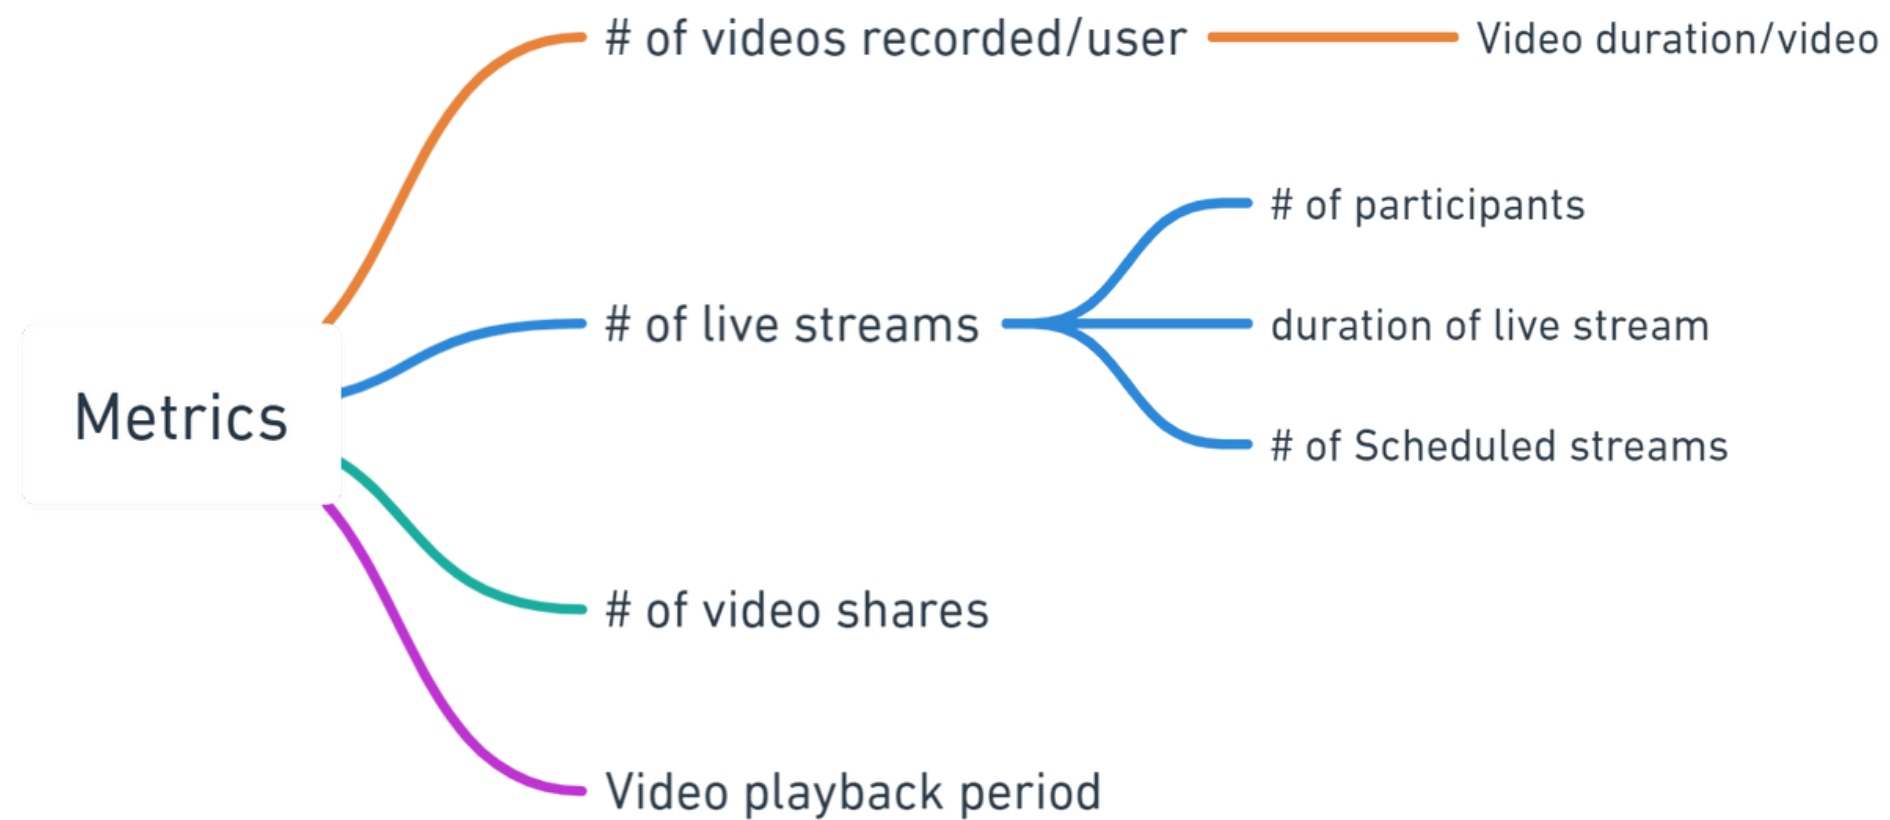

Thoughts

"That was so quick. I think the last 3 seconds should be trimmed. Great, Fluvid already has the video trim feature."

Easy to use dashboard with add-ons

Metrics

Fluvid offers a free plan which has 60 min limit per video and 50 total video recordings, which is much better than other tools.

Fluvid is best for freelancers, solopreneurs, and creators as the offerings are much better.
